

有一个要注意的地方是这个地方要同步增加修改

```
217 }
218 }
219 },
220
221 // get user info
222 {
223   url: '/vue-element-admin/user/info.*',
224   type: 'get',
225   response: config => {
226     const { token } = config.query
227     const userinfo = JSON.parse(token)
228     const info = users[userinfo.role + userinfo.EnterprisesType]
229
230     console.log("政府主管部门",info,users,userinfo);
231     // mock error
232     if (!info) {
233       return {
234         code: 50008,
235         message: 'Login failed, unable to get user details.'
236       }
237     } else {
238       info.userid=userinfo.userid
239       info.fullname=userinfo.fullname
240       info.unitcode=userinfo.unitcode
241       info.usertype = userinfo.usertype
242     }
243   }
244   return {
245     code: 20000,
246     data: info
247   }
248 }
249 },
250
251 // user logout
```
